

KRISHNA K R

+91-9606140554 | krishnakravi007@gmail.com | LinkedIn | GitHub | Bangalore, India

EDUCATION

PES University

Bangalore, India

B.Tech in Computer Science | CGPA: **8.16**/10.0 | 10/10 GPA in Sem 7 | DAC Scholar

2022 – 2026

- **Coursework:** Data Structures & Algorithms, Machine Learning, Software Engineering, Cloud Computing, Cryptography, Computer Networks, Information Security, Large Language Models

EXPERIENCE

Software Development Engineer Intern — Search & Filters Team

Jan 2026 – Jun 2026

Myntra (Flipkart Group)

Bangalore, India

- Revamping the main product filters page, enhancing visual design, interaction patterns, and usability for millions of MAUs
- Building responsive, high-performance UI components with cross-device compatibility and accessibility compliance
- Resolving critical production bugs across the search-filters pipeline, reducing user-facing defects and improving reliability
- Collaborating with PMs, designers, and backend engineers in agile sprints; exposure to A/B testing and feature flags at scale

Software Development Intern

Jun 2025 – Aug 2025

Alten Calsoft Labs

Bangalore, India

- Optimized database query performance by **88%**, cutting execution from 60s to **12s** via SQL indexing and query restructuring
- Built data extraction workflows processing hundreds of queries across enterprise databases in a 2-person agile team

Tech Research Analyst

Jan 2024 – May 2024

CIE, PES University

Bangalore, India

- Fine-tuned **Mistral 7B** on medical datasets for healthcare NLP; deployed **Gemini 2B** locally via LM Studio with Open Interpreter

PROJECTS

Smart Diet & Fitness Planner | React Native, Node.js, GCP, MongoDB, GenAI | Capstone

2024 – 2026

- Built AI-driven, calendar-aware mobile app for personalized health coaching; scalable GCP infra with HIPAA-compliant encryption
- **Published & Presented** at ICCET 2026 (14th Intl. Conf. on Contemporary Engineering & Technology), Chennai

HoneyShield — Honeybot IDS | Python, TensorFlow, CATBoost, CICFlowmeter

2024

- Trained ML models on **10,000+ network samples** achieving **96% accuracy** with **20–30ms** response; FAISS-based threat pipeline with automated alerting

AI Mental Health Chatbot | Python, NLP, LangGraph, Streamlit, DSM-3

2024

- Conversational AI trained on DSM-3 clinical data with high ROUGE scores; 100+ test sessions with multi-turn context via LangGraph

Exercise Recommendation Engine | Python, GenAI, ML, Flask

2024

- Personalized fitness recommender achieving **90% accuracy** via ML-based user profiling; Flask web app with analytics dashboard

PUBLICATION

K. R. Krishna et al., “Smart Diet and Fitness Planner: An AI-driven, Calendar-aware Mobile System for Holistic Health and Motivational Coaching.” *ICCET 2026*, Chennai, India. (OSIET × Samarkand State University)

TECHNICAL SKILLS

Languages: Python, JavaScript, TypeScript, C, SQL, HTML/CSS

Frontend: React, React Native, Next.js, Tailwind CSS, Responsive Design

Backend & DB: Node.js, Flask, Express.js, PostgreSQL, MongoDB, SQLite, REST APIs

ML/AI: TensorFlow, Scikit-learn, CATBoost, LangGraph, NLP, Computer Vision, Deep Learning, GenAI

Cloud & DevOps: GCP, AWS, Azure, Docker, Git, Vercel, CI/CD, Linux

Security: CICFlowmeter, FAISS, Penetration Testing, Network Security, Vulnerability Assessment

ACHIEVEMENTS

State Hub Round — SAP Hackfest 2024 (12,500 participants) | Top 10 — Terrathon 4.0 (270 participants)

Vice-Head, Debate Society — Led 15+ members | Former State-level Swimmer & Chess Player

Active open-source contributor | Technical mentor for junior students in Data Science & ML
